

Thick Glass

Catering for the private individual with discerning taste, as well as the Interior Design, Furniture, Building and Allied industries, Preedy Glass supply and deliver a wide range of superbly finished glass tabletops and shelves in clear, tinted, obscured or low iron ultra clear glass, in a thickness range of 6mm to 25mm.

Edges are polished and bevelled to a standard equal to the surface finish, with a wide variety of attractive edge profiles possible.

For 6mm to 15mm glass, not supported over its entire area, the glass can be toughened for safety to meet the current British Standard BS EN 12600 Class A.

Shape polishing, or internal polished cut outs are carried out on our CNC fully automatic computerised machinery. Table bases and legs are also available in thick glass. Consultancy available.
